

2021 CATALOGUE

Knowledge is adventure.

WELCOME **TO OUR 2024** CATALOGUE.

This year is our 50th birthday, and frankly, we think it's a golden year for our publishing.

We have even more astonishingly beautiful books this year than ever before. We're on hand to help readers discover how orchestras work, explore a world of culinary delights, journey to the stars from their armchair, become a philosopher, learn a new language, find out if ants have knees, or fire up a fascination for fungi. Our growing breadth and range of books showcases extraordinary talent from authors keen to introduce new and diverse cultures, as well as inspiring life stories and perspectives. And we also work with world-leading illustrators and brands to create stunning worlds, brimming with awe and amazement for every age to explore.

Whether your customers are looking for their child's first book in life, buying that inspirational gift, feeding their need for learning or just looking to find their new thing, our books are built for passions and we pride ourselves on making ideas - small or epic - accessible, beautiful and enjoyable.

All that wonderful DK knowledge, entertainment and inspiration adds up to something big. It's what gets us out of the bed, it's what delights your customers and turns your bookshop into those dazzling emporiums of wonder.

So dive in and discover your next adventure.

Paul Kelly, CEO of DK

A WORD FROM OUR PUBLISHER.

"DK is known for its highly informative and imaginative illustrated non fiction, with content that explodes from every page and takes its readers on adventures across a multitude of subjects. While our books are ideal for use within the classroom, they are also perfect outside of it too.

Our readers take centre stage with everything we do at DK, and every fact-filled book is made for children hungry for knowledge. The pages provide multiple entry points, allowing children to access information in different ways, through both words and pictures, and we think about how we can make the whole package irresistible.

We work with the best consultants, authors and illustrators on each subject and ensure our books complement the curriculum, but they are also books to share at bedtime and to entertain, beautifully written and always accessible."

Sarah Larter, Managing Director

THE CHILDREN'S BOOK OF THE

Lavie Tidhar and Richard Watson

The Children's Book of the Future offers an inclusive and hopeful vision of the future, with a diverse, multicultural approach. Children will get lost in underwater cities; the solar system and space travel; green technologies and sustainability; robots and AI; the future of cities; and much more! This book sets out to reclaim the future for current and future generations of children.

DINOSAUR DAY 2024

Last year, we launched the UK's first Dinosaur Day on 30th June. DK is #1 for dinosaur books, so we wanted to take the opportunity to celebrate Britain's love of all things prehistoric!

We kicked things off with messages from dino enthusiasts and experts including **Chris Packham** and paleontologists **Dr Dean Lomax** and **Emily Keeble** on Instagram and YouTube. Independent bookshops around the UK were given specialised dinosaur book lists, downloadable activity sheets (including create and colour your own dino mask!), sticker sheets and Dino Day goody bags. In schools, we had **over 70 classrooms** around the UK downloading our DK Learning activity packs, and a paleontologist paid an exclusive visit to St Richard Reynolds school in South London for a special dinosaur lesson.

Follow @dkbooks on Instagram to hear about our even bigger plans for Dinosaur Day 2024!

How Technology Works

Lifting the lid on the technology that is used all the time but is often taken for granted, whilst taking children to places they'll never get the chance to see, such as the inside of a nuclear storage facility or the crew capsule on top of a Moon rocket. Along the way, children will lose themselves in super-detailed illustrations that reveal amazing hidden things and explain how they work.

HOW DO PICTURES CAPTIVATE CHILDREN'S IMAGINATION?

"I think pictures are essential to imagination, both children's and adult's. And in a way, in a broader sense, this is actually what this book is all about. Pictures fire the imagination not just in the sense of imaginary worlds and fantasy but imagination in the sense of all sorts of complex thought. An architect needs to picture a building before it is built. Charles Darwin famously visualised the tree of life as he sketched out his theory. Watson, Crick and their crucial collaborator Rosalind Franklin needed to picture DNA before they could understand its structure. Many things can be understood better when they are visualised.

I think of this book as a visual history of ideas. I hope by presenting the story visually it makes it accessible. I think that complex ideas can be introduced to a much younger audience if they are explained visually. Visualising also gives us a clearer sense of how ideas evolved across cultures and across time. From the evolution of the alphabet, to the theories of light that led to inventions such as microscopes and telescopes and brought us science and photography. The recent breakthrough in Artificial Intelligence in 2012 was, in fact, in large part also down to image processing. I argue that it was this amazing ability of ours to picture thoughts that started all of this in motion and has, even now, been driving its progression."

EDUCATION

A WORD FROM **OUR PUBLISHER.**

"At DK, we know how vital early literacy is for setting children up for success in their lifelong reading journey; that is why we are truly delighted to have welcomed *Phonic Books* into the DK family. Phonic Books has a wide range of titles which follow a structured progression of phonic skills and thereby support reading development and build confidence in emergent readers.

develop their reading fluency, their love of reading and the confidence to tackle more challenging texts. We offer many series that allow this, such as DK Super Readers,

Together let's start a knowledge adventure."

Hilary Fine, Managing Director, DK Learning

"ENCOURAGE CHILDREN TO USE THEIR READING SUPERPOWER TO LEARN MORE..."

Sam,

Phonic Books

Founded in 2006 by special needs teachers Wendy Tweedie, Tami Reis-Frankfort and Clair Wilson, who wanted to develop phonic reading books to enable all children to read. Phonics is the power that gives children the scaffolding and the toolbox they need to decode text. The stories and illustrations in our books are designed to make children love what they're doing so that they'll want to keep on learning how to do it.

Dandelion books for beginner readers

Dandelion Launchers and our new non-fiction series Dandelion World cover the sounds of the alphabet and double consonants. Dandelion Readers progress readers from sounds of the alphabet to split vowel spellings.

Decodable books for older readers

With seventeen series to choose from, these highly decodable books support practice and build confidence in readers who need continued support with their phonic skills.

DK Super Readers

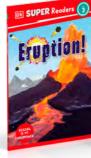

DK Super Readers take children on a journey through the wonderful world of non-fiction: travelling back to the time of dinosaurs, learning more about animals, exploring natural wonders and more, all while developing vital non-fiction reading skills and progressing from first words to reading confidently. The books and online content perfectly supplement core literacy programs and are mapped to the National Curriculum Standards. Children will love powering up their non-fiction reading skills and becoming reading heroes.

A WORD FROM **OUR PUBLISHER.**

"We are always on the lookout not just for the next big thing, but the next lasting thing.

Our books take fans further in depth with the subjects they love, which is why we've been publishing with Star Wars™ for 20 years, with LEGO® and Marvel for over 15 years and many more.

In 2024, we introduce our first book covering Warhammer 40,000, a universe with decades of history, an ever-growing fanbase and one showing record growth to match. Like Warhammer and Dungeons & Dragons – which we will also expand in 2024 with new formats – we see an on-going trend for tabletop gaming, which may be a reflection of a human need for in person connection and shared interests; something that is perfectly reflected in DK books."

Mark Searle, Managing Director

"OUR BOOKS TAKE FANS FURTHER IN DEPTH WITH THE SUBJECTS THEY LOVE..."

Warhammer 40,000 The Ultimate Guide

Set in a grim, dark universe ravaged by endless conflict, Warhammer 40,000 exerts a magnetic pull over those who enter it. Our comprehensive visual guide creates a lavish encyclopaedia of this unique sci-fantasy universe that places the tabletop miniatures front and centre, and will have pride of place on any Warhammer fan's shelf.

HOW ARE WE MARKING THE 25TH ANNIVERSARY OF LEGO STAR WARS?

We are publishing an updated edition of the LEGO® Star Wars™ Visual Dictionary, which comes with an exclusive minifigure in time for May 4th!

This edition features sets from the past two and a half decades, including ones inspired by the classic Skywalker saga as well as new films and series, such as The Book of Boba Fett and The Mandalorian. This edition also contains an exclusive interview with the LEGO® Star Wars™ team – some of whom have been there since the very first LEGO® Star Wars™ models were created.

DK is the premier publisher of LEGO® Star Wars™ books! Celebrate 25 years of this best-loved theme with some of our other books - see p.71 for the full list.

Manga The Ultimate Visual History ®

Chronicling the evolution of Japanese Manga comics from their samurai-era beginnings, through to their post-WWII surge in popularity, to their meteoric rise overseas, this book explores the genre-defining writers and artists who have shaped an entire culture with their visions and stylings, the iconic characters who are now recognised worldwide, and Manga's impact on anime and live-action film and TV.

BEHIND THE SCENES.

Photoshoot for LEGO® Amazing Space

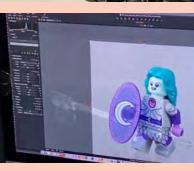

"We commissioned LEGO® model builders to create models of planets, rockets, space stations, aliens, and more for our LEGO® Amazing Space book. The models were sent to us pre-built, but, however well-packaged they are, there's always a bit of rebuilding to do when unpacking them. We also have to give the models and minifigures a good clean - even the tiniest specks of dust can be seen through the camera!

As well as the main shots, we take some bricks off some models to show exploded views of how they are built. The photographer sets up their lights, camera, computer, a perspex stand to place the models on, and a grey backdrop. We can take hundreds of shots in just one day, adjusting each time until we're happy. At the end of each shoot day we come away with 20-45 photos (and we get through quite a lot of snacks, too!)."

A WORD FROM OUR PUBLISHER.

"My favourite letters from our readers tell stories of places they visited because they read about them in our travel books. Although they hadn't originally planned to visit them, these places - coffee shops, natural landscapes, music venues, hidden caves - became the highlights of their trip and a precious memory that will last a lifetime.

The serendipity of turning the page to discover something new is unrivalled anywhere online. It's like having a friend quietly whisper in your ear about a place you just have to see. We believe that travel is good for you. It disconnects you from the daily routine. It improves your understanding of other cultures. It brings you closer to the ones you love. And with the travel market continuing its triumphant return, there is no better time to remind book lovers that getting their travel advice from one of our guides is how an ordinary trip becomes extraordinary."

Georgina Dee, Publishing Director

There's so much to love about Mexico. Indigenous traditions stretching back millennia, colourful cuisine that's loved the world over and vibrant festivals bursting with joyful energy. Mexico is a country worth celebrating and that's exactly what ¡Viva Mexico! is all about.

"TRAVEL ADVICE FROM ONE OF OUR GUIDES IS HOW AN ORDINARY TRIP BECOMES EXTRAORDINARY."

A fascinating journey through the wisdom and wonders of Japan. Revised and updated, and with each page alive with facts, history and inspiration, *Be More Japan* unlocks the secrets behind modern Japanese living, whether you're eating sushi in London or enjoying the cherry blossoms in San Francisco. And if you're dreaming of a future trip to Japan, this book will get you closer to your destination before you've even departed.

"WHEN YOU LEAP OUT OF YOUR COMFORT ZONE AND TRAVEL TO NEW PLACES, YOU GAIN CONFIDENCE IN A WAY YOU NEVER REALISED WAS POSSIBLE.

You begin to believe in yourself a bit more. You begin to persist in the face of setbacks. And most importantly, you begin to understand that the world is much bigger than the small bubble of what you know and is normal to you. The knowledge you get from exposing yourself to different ways of life in a real, hands-on way is one of the greatest gifts you can give yourself in life."

Kacie Rose

You Deserve Good Gelato @

Kacie Rose

In her intimately funny and feel-good way, social media star Kacie Rose offers a refreshingly honest take on navigating a new life abroad, covering everything from travel fails and homesickness to the joy of culture shocks and the power of doing stuff that scares you. Kacie reflects on the pure terror of driving on Italian roads, the trials of speaking a new language and the genuine beauty of a slower pace of life, all with humour at the heart of her stories.

"AS A TRAVEL WRITER, THERE ARE FEW THINGS MORE SATISFYING THAN WORKING ON A GUIDEBOOK.

For the new *Eyewitness Iceland* guide, I travelled the length and breadth of the country, whale-watching off Húsavík, hiking up volcanoes in the Highland and soaking in the Blue Lagoon — all in the name of research, of course.

Then it's just a case of curating all of that information into something in-depth and inspirational – easy enough when you're writing about somewhere as fascinating as Iceland – and then sitting back and watching it all come together, with vivid imagery and brilliant cut-out illustrations, in that unique DK way."

Keith Drew, author of DK Eyewitness Iceland

A WORD FROM OUR PUBLISHER.

"At DK, we're proud to publish books that help people live life to the full; from bestselling and beautifully designed cookery, gardening, health, wellness and craft books to innovative, category killing reference as well as our exciting new expansion into topically current narrative titles.

We're home to a global family of authoritative and entertaining authors and partnerships across Lifestyle. As the UK's No. 1 gardening publisher we are committed to growing the next generation of gardening and natural history authors – from our partnership with the RHS to new and emerging talent."

Katie Cowan, Publishing Director

I'm Rich, You're Poor

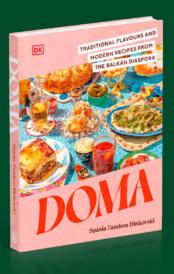

habaz Ali

The world is full of books about how to be rich. This is not one of them. This laugh-out-loud deep-dive into social media's ridiculously rich, will help you love your own penny-pinched, rough-around-the-edges, extraordinarily ordinary life. Teacher turned TikTok comedian and global star Shabaz Ali (or @ShabazSaid) wants to help you see the funny side of social media again. Because while it looks nice to live up in an ivory tower, this book reminds us that it is much more fun to be part of the baying mob that surrounds it.

DINA MACKI TALKS TO US ABOUT OMANI FLAVOURS AND INGREDIENTS.

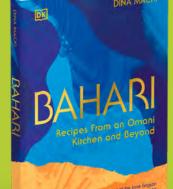

Dina Macki is a chef, recipe developer, food writer, and presenter. By day, she also works for The Anglo-Omani Society which has deepened her knowledge of Oman's history, and given her access to an incredible global network. Bahari is her first cookbook.

What key Omani flavours or ingredients should everyone have in their kitchens at home, or might they not realise that they already have?

"I would say that dried limes/black limes are a must have. A lot of Omani cooking calls for intense citrus notes but also lots of slow cooking, which is happily achieved with these. Cardamom is also essential for all our sweet recipes. A good Baharat blend; ideally one which has cloves, cinnamon, cardamom and black pepper but ideally without aniseed or star anise – this will get you through so many recipes.

Then I would also say dates and coconut are essential if you want to cook recipes from different regions of Oman."

Bahari 📵

With honesty and curiosity, British-born Omani-Zanzibari chef Dina Macki explores the unique foodscape of Oman, in the first Omani cookbook written by an Omani chef. With 100+ recipes for meat, fish, vegetables, homemade breads and dips, desserts and drinks, Macki invites you into her kitchen, so you can create exquisite Omani dishes at home.

Tomatoes and Basil on the 5th Floor (The Frenchie Gardener)

Patrick Vernuccio

Get the most out of every bit of balcony space to easily grow your own sustainable, organic, and tasty food. From dividing store-bought basil plants, to harvesting vegetables at the best time of year, to letting plants set seed for the benefit of wildlife, Patrick takes you through a myriad of ways to get crops and produce out of a very limited space. Working with the seasons and with good-quality seed and compost, he explains all you need to know to ensure every inch of your balcony can give you tasty and beautiful crops to harvest.

Hello Tiny World Ben Newell

Hello Tiny World (9)

Ben Newell

A friendly journey through the captivating world of terrariums from the creator of one of the most famous terrariums ever. How can terrariums teach us about the environment? Can working with plants improve our mental health and wellbeing? And how do we learn to express ourselves and our creativity through these wondrous mini ecosystems? Ben Newell explores these questions as he weaves in his own personal experiences alongside practical projects with step-by-step photographs.

A WORD FROM OUR PUBLISHER.

"It's nearly 40 years since one of our founders, Peter Kindersley, broke the mould for reference publishing by making information easier than ever to grasp. Images were used to explain things in a way that hadn't been seen before, surrounded by absorbing text to draw in readers.

We're still making gorgeous books that demystify tricky topics using photographs, infographics, and illustrations, all with jargon-free, expert-authenticated text. Nowadays, reference books are competing with the internet, but you can rely on DK to bring you information you can trust. You know it's been checked and carefully curated so it's just what you need. Our design may have moved with the times, but our values remain the same: to intrigue you with beautiful and surprising images, and communicate knowledge in straightforward language so that it is accessible for all ages."

"YOU CAN RELY ON DK TO BRING YOU INFORMATION YOU CAN TRUST."

Africa: The Definitive Visual History of a Continent

Foreword by David Olusoga

Immerse yourself in the intricate story of Africa and discover its true place in world history. Spanning more than 200,000 years, from the emergence of the first humans to the rise of megacities, *Africa* explores the history and cultures of the world's second-largest continent in vivid detail. Each page brings to life the stories that shaped Africa and the world around it, from powerful empires and kingdoms such as Mali and Benin, through to the struggle against colonisation and the fight for independence, to Africa's place on the global stage today.

DK AND THE SCIENCE MUSEUM

From this year, we are partnering with the Science Museum to publish a range of books that take inspiration from the Science Museum Group's world-class collection that forms an enduring record of scientific, technological and medical advancement from across the globe. Informed by the Science Museum Group's award-winning exhibitions, iconic objects and stories of incredible scientific achievement, the books have original text and illustrations to create a new series of science explainers that draw readers into the world of scientific discovery.

Stephen Hawking: Genius at Work publishes in March 2024 to coincide with the tour of Stephen Hawking at Work, a new display featuring highlights from Professor Hawking's office.
